

## SYLLABUS: Advanced Neurophysiological Psychology

Psychology 410; **NOTE: This is an advanced course, and prior exposure to neuroscience basics (neurons, synapses, resting/action potentials, receptors, large scale brain structures, techniques) is highly recommended.**

WINTER TERM (1/6 – 3/16); Course meets M/W/F, 12:45 – 1:50pm

CLASSROOM: TBD

**Instructor:** Bill Griesar, Ph.D., [griesar@pdx.edu](mailto:griesar@pdx.edu) \*\* DO NOT USE d2l address

**Teaching Assistant:** ()

**Teaching Assistant:** ()

**Teaching Assistant:** ()

**Graduate Teaching Assistant:** ()

**Office hours:** Mondays, 11:30 – 12:30, Cramer 309 (Bill)

Mondays, 2:00 – 3:00, Cramer 365 ()

**Book:** *Phantoms in the Brain*, by V.S. Ramachandran (REQUIRED) (but cheap!)

**Objectives:** The primary objectives of this course are:

- (1) To teach you to gather, evaluate and present scientific information; and
- (2) **For PSU undergraduates:** to offer you a better understanding of the nervous system through discussion and presentation of current topics in neuroscience research, a visit to the Oregon National Primate Research Center, and exposure to graduate students pursuing original research
- (3) **For OHSU graduate students:** to provide you with the opportunity to organize and present current topics in neuroscience research, and gain experience teaching and assessing undergraduate students

The course begins with a review of key topics in physiological psychology, including neurons, synapses, neural networks, gross anatomy, the neocortex, some specific cognitive networks, and various imaging and other techniques.

We then focus on a book by neurologist V.S. Ramachandran (“Phantoms in the Brain”), and examine case studies of patients experiencing a host of neurological disorders, from phantom limb pain to anosognosia, temporal lobe epilepsy and hemispatial neglect. Undergraduate students will research and prepare presentations on individual chapters for delivery in class.

**We will then concentrate on TWO research topics this term: (1) TBD and (2) TBD.** Our visiting neuroscience graduate students will choose one review article for each topic, and research and prepare introductory presentations for delivery as class lectures. Our graduate students will lead seminars to discuss current research on the topic, and will develop assessments (quizzes, short assignments), and (with supervision) help score these assessments.

PSU undergraduate students will read the review article/chapters chosen by each graduate student. *Further instructions will come from our graduate participants later in the course.*

This term we also have the unique opportunity to visit the Oregon National Primate Research Center, to meet with scientists and tour the facility itself!

**Grades:** Grades are based on a point system: 90 points or higher = A, 80 – 89 points = B, 70 - 79 = C, and 60 - 69 = D. An A or B is an ABOVE AVERAGE grade, a C is AVERAGE, and a D is BELOW AVERAGE. Available course points (which will total 105) are accumulated in the following ways:

1. **Basic brain review exam (20):** From material covered in lectures.
2. **Ramachandran questions and participation (15):** You should post (on d2l) at least one question about the book chapters, along with researched answers, to the relevant discussion forum no later than 24 hours before class. You will receive points for these question(s) and for class participation each day. Attendance required. **LATE POSTS RECEIVE NO CREDIT.**
3. **Ramachandran presentations (20):** Students will form six groups, and each group will orally present a series of chapters from the book (15 points per student). Students will also prepare an online youtube video presentation that will be posted to the course website (5 points)
4. **Ramachandran project (15):** From material covered in the Ramachandran book.
5. **Graduate topic assignment One (7.5):** PLEASE CHECK the course d2l site for more instruction on required assignments AS THE TERM PROGRESSES...
6. **Grad Topic One exam (7.5):** From material covered in lectures and discussion.

7. **Graduate topic assignment Two (7.5):** PLEASE CHECK the course d2l site for more instruction on required assignments AS THE TERM PROGRESSES...
8. **Grad Topic Two exam (7.5):** From material covered in lectures and discussion.
9. **Teacher evaluations (5):** For completing and submitting ALL graduate student teacher evaluations during finals week.
10. **Graduate panel attendance (5):** For attending grad panel during finals week.

ASSIGNMENT	POINTS	DUE DATE(S)
Basic brain review exam	15	January 28
Rama. questions/ participation	15	Jan 27 – Feb 7
Rama. chapter presentation	20	Jan 27 – Feb 7
Ramachandran project	15	Feb 10
Topic One Assignment (Topic)	7.5	See d2l for details*
Topic One assessment	7.5	See d2l for details*
Topic Two Assignment (Topic)	7.5	See d2l for details*
Topic Two assessment	7.5	See d2l for details*
Teacher evaluations	5	March 16 (in class)
Graduate panel attendance	5	March 16 (in class)
<b>TOTAL COURSE POINTS</b>	<b>105</b>	<b>* Grad students will assign</b>

## CLASSES:

### PSU students only

#### *Basic brain review*

1. **Introduction (1/6):** introductions, course information, syllabus and course expectations, on-line databases, library resources at PSU and elsewhere
  - *READ "Cellular Foundations of Neuropharmacology," by Floyd Bloom et al*
  - *READ through additional material posted on d2l course website*
2. **Neurons, Glia and Synapses (1/8):** neuron (and glial) structure/ function, electrical properties of neurons, resting potential and action potentials, role of myelin; chemical transmission, neurotransmitters, network architecture
3. **Neurons, Glia and Synapses (1/10):** More on these topics...

4. **Gross CNS review** (1/13): Anatomical directional terms, planes of sections, meninges, lobes, sulci, gyri, fissures, diencephalon, brainstem, cerebellum...
  - *READ "The columnar organization of the neocortex," by V. B. Mountcastle*
  - *READ "Evolution of the neocortex Biology," by Pasko Rakic*
  - *READ "The neocortical column," by Javier DeFelipe et al*
5. **The Cortex** (1/15): basic structure and function (lobes, sulci, gyri), sensory vs. association, Brodmann areas, motor/somatosensory gyri, language areas, etc.
  - *READ "A Brief History of Human Brain Mapping," by Marcus Raichle*
  - *READ "The brain's default network," by R.L. Buckner, et al*
  - *READ additional articles on course d2l website*
6. **Gross CNS** (1/17): BRAIN VIEWING

**\*\* NO CLASS ON MONDAY, JANUARY 20<sup>th</sup>**

- **\*\* Happy Martin Luther King Junior Day!**

7. **Network example** (1/22): Distributed networks underlie complex cognition
8. **Basic brain review EXAM** (1/24)

**PSU students only**

### *Phantoms in the Brain*

Students divided into six groups: Each group presents one set of chapters...

*(Use overheads, handouts, and draw on related peer-reviewed research articles...)*

9. **Chapters 1, 2** (1/27): student presentations and discussion
10. **Chapters 3, 4** (1/29): student presentations and discussion
11. **Chapters 5, 6** (1/31): student presentations and discussion
12. **Chapters 7, 8** (2/3): student presentations and discussion
13. **Chapter 9, 10** (2/5): student presentations and discussion
14. **Chapters 11, 12** (2/7): student presentations and discussion
15. **Ramachandran PROJECT DUE** (2/10)

**PSU and OHSU students****TOPIC ONE: TBD****OHSU GRAD STUDENT(s)**

MORE Details TBD

**NOTE: The following class dates and assignments may change, depending on what our graduate teaching participants prepare. Please check the D2L course website for explicit instructions on assignments, etc.**

16. **Topic One** (2/12): *Graduate student presentation:*

17. **Topic One** (2/14): *Graduate student presentation:*

18. **Topic One** (2/17): latest research articles and discussion

**\*\* NO CLASS ON WEDNESDAY, FEB 19 or FRIDAY, FEB 21**

19. **Topic One** (2/24): latest research articles and discussion

20. **TOPIC TWO EXAM** (2/26): prepared/assessed by grad student

**PSU and OHSU students****TOPIC TWO: TBD****OHSU GRAD STUDENT(s)**

MORE Details TBD

**NOTE: The following class dates and assignments may change, depending on what our graduate teaching participants prepare. Please check the D2L course website for explicit instructions on assignments, etc.**

21. **Topic Two** (2/28): *Graduate student presentation:*

22. **Topic Two** (3/2): *Graduate student presentation:*

23. **Topic Two** (3/4): latest research articles and discussion

24. **Topic Two** (3/6): latest research articles and discussion

25. **TOPIC TWO EXAM** (3/9): prepared/assessed by grad student

26. **\*\* PRIMATE CENTER TOUR!** (3/11): 12:30 – 3:00pm @ ONPRC

27. **GRADUATE STUDENT INFORMATION PANEL (3/16):** Final exam week. Undergraduates, please bring (and post) questions about graduate school, research opportunities, application procedures, grants, etc...!

\*\*\* **MONDAY, MARCH 16, 2018, 12:30 – 2:20pm** \*\*\*

**For OHSU students:** To participate, you must have successfully completed your qualifying exam, and have explicit approval of your dissertation advisor in Behavioral Neuroscience. If selected, you will need to enroll in BEHN 650 (Teaching Practicum)...

**A NOTE ABOUT STUDY GUIDES AND EXAM PREPARATION:** Please be aware that while study guides are *often* prepared and/or updated by course TAs, these are *never* meant to be comprehensive or used as your sole material for study.

\*\*\*\*\* *Please review your own notes, any course slides, and in particular the readings required for the course before taking any assessment this term...*

**ABOUT EXCUSES:** Life has ups and downs, and everyone struggles sometimes with family, work, and other personal concerns and commitments. **However, unless there is a serious, unexpected, sudden, documented, and significant emergency, please do not petition for special treatment regarding deadlines for projects, quizzes, or exams.**

**I am required to treat all students fairly, so each of you must think ahead and plan for when assignments are due. Everyone is subject to the same course expectations.**

Note that sometimes, for a myriad of reasons, life intervenes to create ongoing difficulties with class attendance, and meeting academic requirements. *In these cases, it's often best to withdraw from the course, and perhaps re-enroll at a less stressful time...*

**Title IX:** Title IX is a federal law that requires the university to appropriately respond to any concerns of sex/gender discrimination, sexual harassment or sexual violence.

***To assure students receive support, faculty members are required to report any instances of sexual harassment, sexual violence and/or other forms of prohibited discrimination to PSU's Title IX Coordinator, [Julie Caron](#).***

If you would rather share information about these experiences with an employee who does not have these reporting responsibilities and can keep the information confidential, please contact one of the following campus resources (or visit this [link](#)):

Women's Resource Center (503-725-5672) or schedule on line at <https://psuwrc.youcanbook.me>

Center for Student Health and Counseling (SHAC): 1880 SW 6th Ave, (503) 725-2800

Student Legal Services: 1825 SW Broadway, (SMSU) M343, (503) 725-4556

PSU's Title IX Coordinator and Deputy Title IX Coordinators can meet with you to discuss how to address concerns that you may have regarding a Title IX matter or any other form of discrimination or discriminatory harassment. Please note that they cannot keep the information you provide to them confidential but will keep it private and only share it with limited people that have a need to know. You may contact the Title IX Coordinators as follows:

PSU's Title IX Coordinator: Julie Caron by calling 503-725-4410, via email at [titleixcoordinator@pdx.edu](mailto:titleixcoordinator@pdx.edu) or in person at Richard and Maureen Neuberger Center

Deputy Title IX Coordinator: Yesenia Gutierrez by calling 503-725-4413, via email at [yesenia.gutierrez.gdi@pdx.edu](mailto:yesenia.gutierrez.gdi@pdx.edu) or in person at RMNC, 1600 SW 4<sup>th</sup> Ave, Suite 830

Deputy Title IX Coordinator: Dana Walton-Macaulay by calling 503-725-5651, via email at [dana26@pdx.edu](mailto:dana26@pdx.edu) or in person at Smith Memorial Union, Suite, 1825 SW Broadway, Suite 433

For more information about the applicable regulations please complete the required student module [Creating a Safe Campus](#) in your D2L.
